

To whom it may concern-

RE: Budget Painting

A few year ago I had my house painted by Budget Painting. They did such a wonderful job on it that they were the first and only company I thought of for my current project.

Terry Resina has just finished re-doing the deck around my 36 ft. pool. The pool is over 30 years old and this had never been done before. It was worn, blackened by mildew, and full of cracks and crevices.

He began by pressure washing the deck, being very careful of the many large plants I have growing next to it. Then the cracks were filled. The cement was all broken up near the ladder connections and he painstakingly put the pieces together and patched it.

Next he coated the deck with a stain that dries flat and it looks just like the original finish. That took two coats . The results are fabulous! I was amazed at how meticulous Terry was. he treated the job as if it were a home interior. The great thing is that I didn't have to worry about a thing during the three days it took to finish the work because I know that Terry is a neat and careful worker. The price was very reasonable as well, for all the work he did.

I wouldn't hesitate to recommend Budget Painting to anyone, especially to people who are very particular.
